Sir:

**REQUEST FOR CORRECTED PATENT APPLICATION PUBLICATION UNDER 37
C.F.R. § 1.221(b)**

Applicant hereby requests that the above-referenced application be republished under 37 C.F.R. § 1.221(b) due to a material mistake made by the United States Patent and Trademark Office (the "Office") in publishing the application. As the application was published on August 28, 2003, this request is within the two month statutory period required to correct material errors in a published application.

Claim 12 of the above-referenced application was submitted to the Office as follows, a highlighted copy of which is attached:

12. The composition of claim 7, wherein X is present in said polymer at a level of from about 10-60% by weight, based upon the total weight of the polymer taken as **100%** by weight. (Emphasis added).

Claim 12 of the above-referenced application was published as follows, a highlighted copy of which is attached:

12. The composition of claim 7, wherein X is present in said polymer at a level of from about 10-60% by weight, based upon the total weight of the polymer taken as **1100%** by weight. (Emphasis added).

This error made by the Office in replacing 100% with 1100% is material, as it changes the scope of the claim dramatically. The error has a great bearing on an individual's comprehension of the invention because a different composition is created by using the 1100% by weight measure instead of the correct 100% by weight measure. Thus, the error must be considered material as it radically changes the scope of the claim and the nature of the claimed invention.

Applicant has herein complied with the requirements of 37 C.F.R. § 1.221(b) in establishing that a material error has been made in the publication of a patent application by the Office. As a result, Applicant respectfully requests that the above-referenced application be republished in its correct form without the error. Additionally, Applicant believes that no fee is due in connection with this request. However, if a fee is determined to be due in connection with this request, it should be applied against Deposit Account No. 19-0522. Should any questions remain, the undersigned may be contacted at 800-445-3460.

Respectfully submitted,

HOVEY WILLIAMS LLP
